Safety Training  
Don't Text and Drive  
March 2018

**Texting while driving  
Everybody's doing it!**

# Texting while driving

1. Cultural changes
2. Stats
3. Top 5 to keep in mind

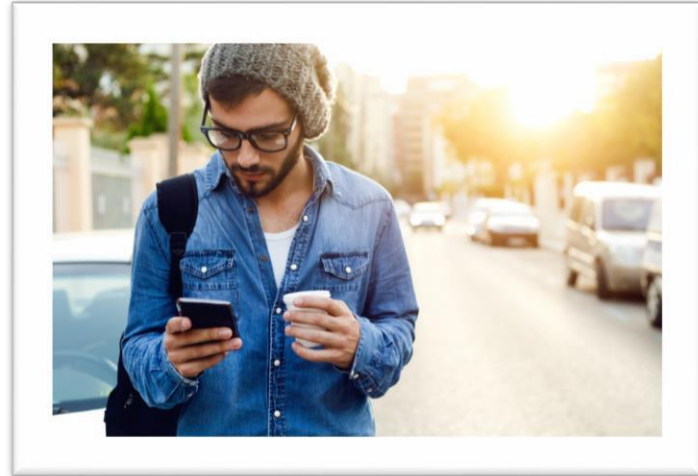

# MOBILE DEVICES ARE EVERYWHERE!!!!

Mobile devices have become a fixture within our society.

In many instances a mobile device has contributed to unfortunate and sometimes deadly consequences.

An alarming number of motor vehicle crashes have been linked to the use of cell phones while driving. In many cases injury and death have resulted from a person attempting to text while driving.

# Stats

## The National Highway Traffic Safety Administration reports:

**18%** of crashes involving injuries were reported as “distraction-affected crashes” caused by a mobile device.

**10%** of drivers between the ages of 15 - 19 who were involved in fatal crashes were reported as using a mobile device at the time of the crash.

**391,000**

ESTIMATED NUMBER OF  
PEOPLE WOUNDED

**3,477**

PEOPLE KILLED IN A MOTOR  
VEHICLE CRASH INVOLVING  
DISTRACTED DRIVERS(2015).

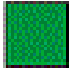

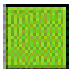

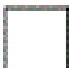

**660,000**

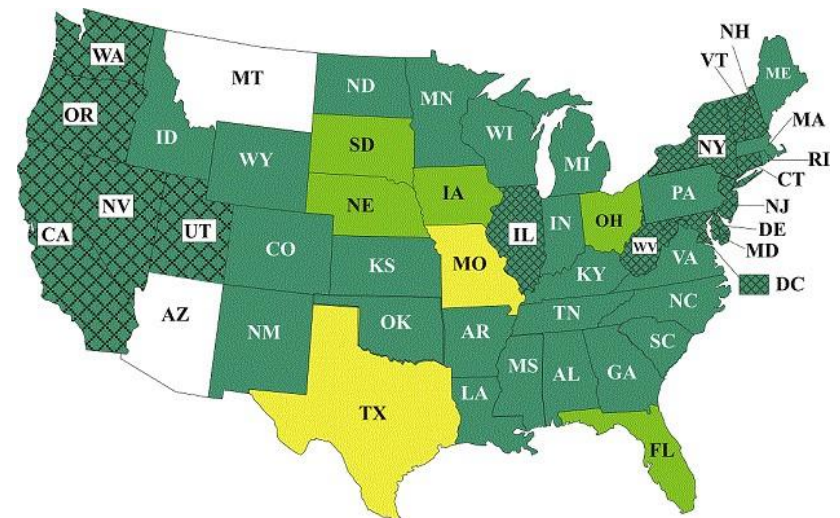

ESTIMATED NUMBER OF DRIVERS  
USING ELECTRONIC DEVICES WHILE  
DRIVING DURING THE DAY

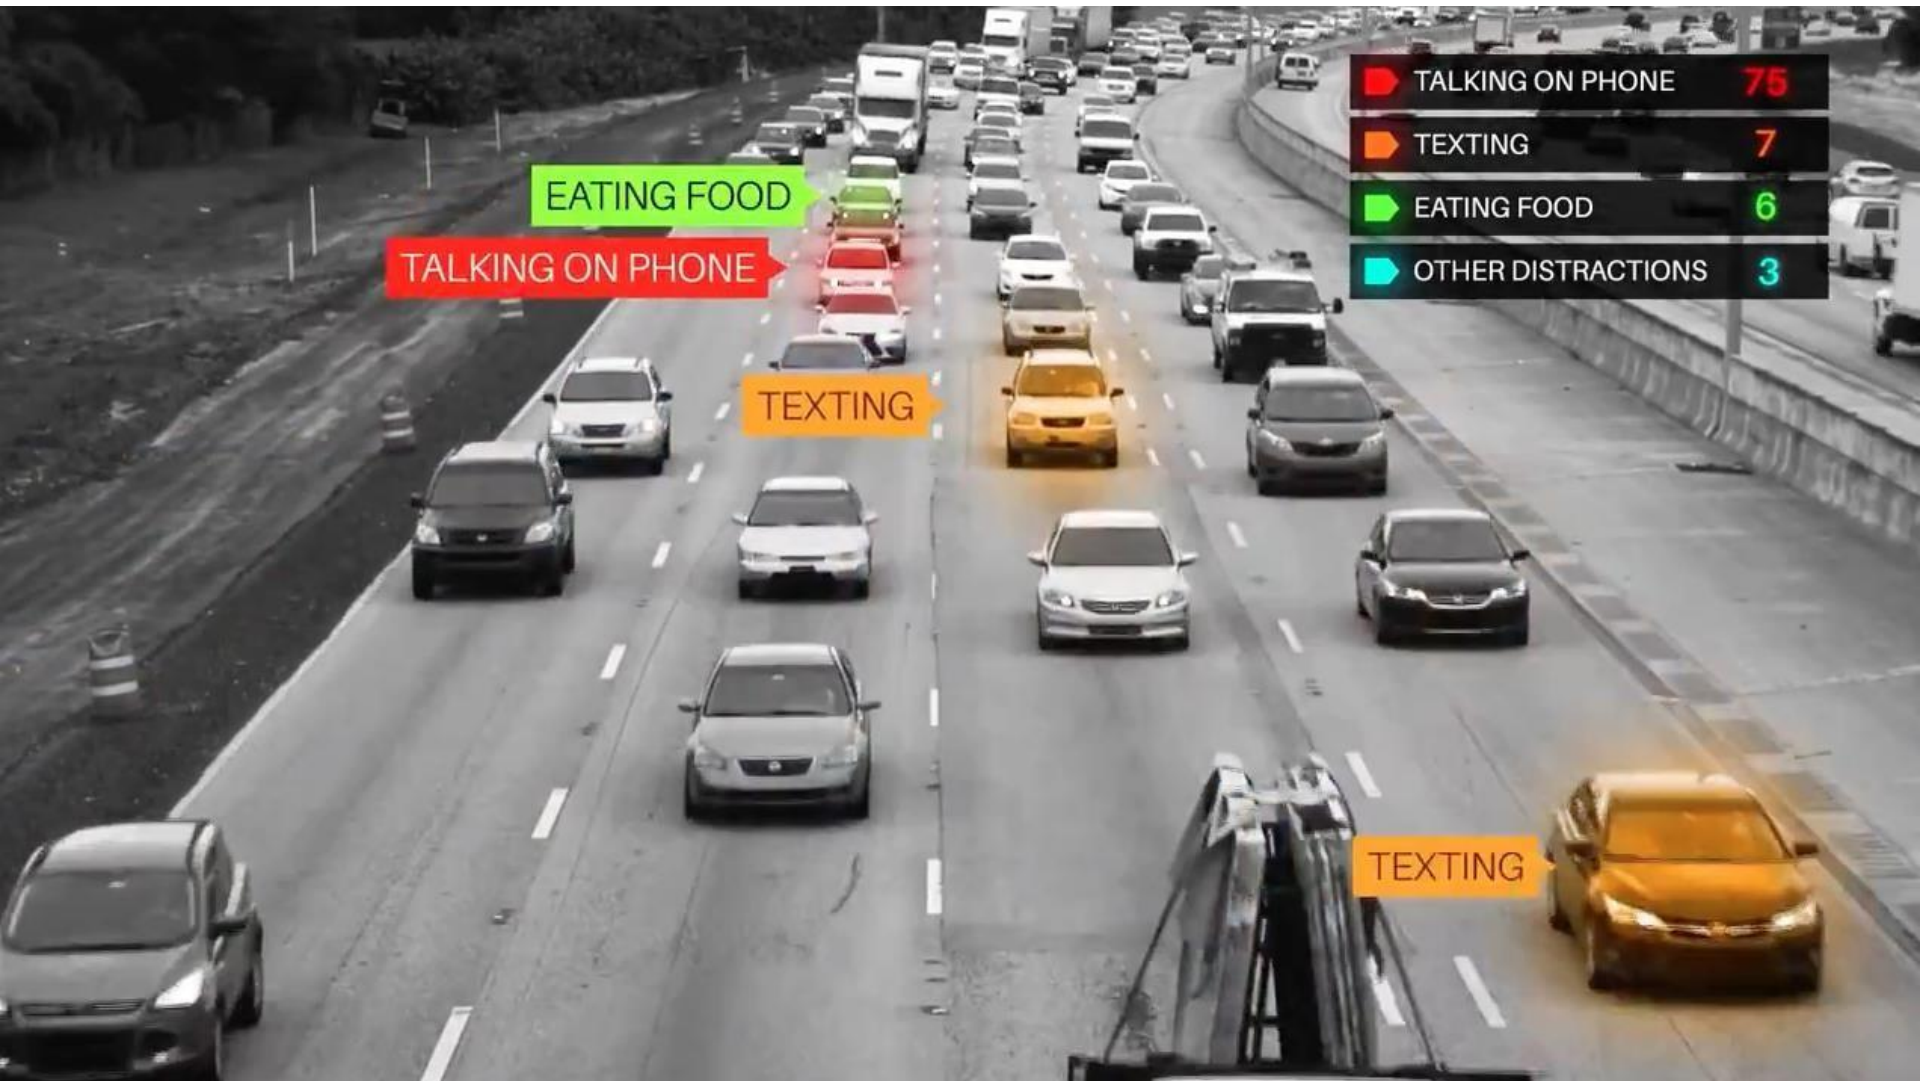

# Top 5 to keep in mind

- Do not to use a cell phone while driving.
- No one should text and drive.
- If you need to text or talk-pull over to a **SAFE** place.
- It is a fact that taking your eyes off the road – **even for a few seconds** – could cost someone injury or evendeath.
- Be an example for others.**

-  Primary enforcement of texting ban for all drivers.
-  Secondary enforcement of texting ban for all drivers.
-  Texting ban for novice/beginner drivers.
-  No texting ban in the state.
-  Hand-held phone use ban for all drivers.
